

A Little love

The further down the road you travel
In time you'll come to understand
What really counts what really matters
When you hold it in your hands

I can take my share of slings and arrows
I can take the road when it gets rough
Stand up against a sea of troubles
With a little of your love

A Little love
A Little love
Nothing else I've found is good enough
A Little love
A Little love
Everybody needs a little love

Sometimes I get lost in the darkness
Sometimes I give myself to fear
That I might feel this way ever
And I'll never see it clear

Old blues can hit me out of nowhere
Black cloud that I can't rise above
Only you to change my way of being
With your little of your love

A Little love
A Little love
Nothing else I've found is good enough
A Little love
A Little love
Everybody needs a little love

Shot of whisker in the night won't cure it
Your gonna need some stronger stuff
When you can't go on there's nothing for it
But love, only love
