

## Above The Noise

I wanna see beyond the horizon  
I wanna build what fear destroys  
I wanna sail over the static  
I want break though above the noise

I wanna steal across the border  
Ride that big horse straight into Troy  
I wanna beat these odds I've been given  
I want break though above the noise

Above the noise  
Above the noise

I wanna find a new way of living  
Catch a life line out of the void  
I wanna start a new revolution  
I want break though above the noise

Caught in a storm of information  
Caught in a bind of infinite choice  
I'm looking for a new solution  
I wanna break through above the noise

Above the noise  
Above the noise

Everybody wants to live a life  
With some purpose and some meaning  
Everybody wants their voice to be heard  
But right now everybody's screaming

I wanna see beyond the horizon  
I wanna build what fear destroys  
I wanna sail over the static  
I want break though above the noise

I need to find a song that moves me  
I need a groove that brings me joy  
Ain't gonna let that backchat rule me  
I want to break though above the noise

What have I got to do  
to end this reign  
What have I got to do  
To hear myself again

Above the noise  
Above the noise
