

Keep Moving On

Well we're stone dead standing still
We're just sitting ducks waiting for the kill
If we find the way and the will
To keep moving on

We got fear in our bones
And it feels like we're so far from home
But it's only the pain of our growing
So Keep moving on

Maybe it's not about getting to the promise land
Maybe, maybe it's more about trying

Well we're all born in the fight
We're all children thrown into the night
You gotta lift your eye's up to the light
And keep moving on

Cause there ain't no go back
Ain't no footprints left on the track
And time never cut any slack
So keep moving on

Maybe it's not about getting to the promise land
Maybe, maybe it's more about trying

You can't live your life in the past
Nothing good or bad ever lasts
You can walk slow or you can walk fast
But keep moving on
Keep moving on
