

Love's Made A Fool Out Of Me

I've been here before
Standing out in the rain
At the mercy of heartache and pain
Loves made a fool of me

I guess I was wrong
To think my luck could change
But once again I've been burnt by the flame
Love's made a fool out of me

Every night I'm dreaming
What could never be
But I keep on believing
They'll come a day, you'll belong to me

A Heart can deceive
Sell you a dream just to make you believe
Now I got nothing but my misery
Love's made a fool out me

Every night I'm dreaming
What could never be
But I keep on believing
They'll come a day, you'll belong to me

But I know my heart
Will always lead me astray
So I'll pretend that I've locked it away
Where no one else can see
Love's made a fool out of me
Love's made a fool out of me
