

## Mercy

Am I lost, gone away  
Am I gratefully digging my grave  
Do my feet fear to run  
From the heart of a prison of one

Can I change these clothes I've worn  
Shed this old skin and be reborn  
Give me time  
And a peaceful mind  
Give me mercy

Well I've stood in the snow  
And I've watched that wildfire grow  
Seen the flames catch the wind  
And I've felt their heat on my skin

But now I feel so small  
With my back up against the wall  
Give me time  
And a peaceful mind  
Give me mercy

I wish I was an eagle  
Floating on the air  
And I didn't have this heavy cross to bear

I've got scars that still ache  
From every misstep from every mistakes  
For every lie I believed  
There's a ghost in my head that won't leave

So don't make me confess  
With your own cards tight to your chest  
Give me time and a peaceful mind  
Give me mercy
