

The Other Side

Give me a new heart
That'll fix this broken story
Show me a vision
I can hang my future on

Cause I'm standing in the shadow of the mountain
Another lonely spirit looking for a sign

Help me find a way
Across the great divide
Make this doubter see
The other side

Show me a morning
In a place that has no memory
Show me a frontier
With gold and silver in the ground

Cause I'm caught in the grip of the riptide
Don't let this weight I carry drag my body down

Help me find a way
Across the great divide
Make this doubter see
The other side

May the spring rains
Heal the river of my senses
May the sea winds
Blow the sorrow from my mind

Cause all I can see is the distance
I hope the hand of mercy reaches me in time
