

Waking Dream(Ab)

Clouds grown in a waking dream  
Gently form the slum  
Happy window sills the dusty rain  
Frozen in a Mason Jar  
Playground loneliness  
Keeps the black dog blues around my brain

Save me I'm falling through that open window  
Save me I'm failing now  
Save me I'm drowning in that well of wishing  
Save me I'm going down

Looking out beyond the gates  
Hour after hour  
One day I might just get my parole  
Throwing stones at history  
Wishing time could fly  
Show me how to be invisible

Save me I'm falling through that open window  
Save me I'm failing now  
Save me I'm drowning in that well of wishing  
Save me I'm going down
